## Professional Summary

I am Tawhidul Islam, a passionate MERN stack developer with a strong foundation in React, Redux, Node.js, Express.js, MongoDB, and modern web technologies. With a focus on building responsive, efficient, and scalable web applications, I thrive in creating seamless user experiences and robust back-end solutions. I am driven by the desire to solve complex challenges and am committed to writing clean, maintainable code. Looking ahead, I am eager to work on developing cutting-edge, advanced web solutions and further expand my skill set in full-stack development.

---

## Skills

-Frontend: HTML, CSS, Tailwind CSS, JavaScript, React, Redux

-Backend: Node.js, Express.js, MongoDB, REST APIs

-Tools: Git, Github, Postman, Firebase

---

## Projects

### Project Name: Doc House

*Developed a user-friendly platform for scheduling doctor appointments efficiently.*

- Patients can easily book appointments.
- Implemented Firebase Authentication for secure login.
- Designed Admin and User Dashboards for role-based access.

**Technologies Used:** React, Node.js, MongoDB, Express.js
